

# You are the Greatest!

**Grade 3 Objective: Students will practice addition fluency.**

**Directions:**

- 1. The person with a birthday closest to today goes first.**
- 2. The first player rolls two number cubes, records the numbers then adds the digits and records the sum.**
- 3. Play continues clockwise until all players have a sum.**
- 4. After each round, the player with the greatest sum gets a point.**
- 5. The player with the most points at the end of the game wins.**
- 6. Place your completed record sheets in the center work tray.**
